

The Nefilim Maya

"**Nefilim**" is the name of a highly intelligent and evolved reptilian alien species that is the real dominant species on planet Earth."

"**Maya**" is the Hindu word describing the perceived illusion humans are under before we enlighten through meditation and silence of mind."

"The **Nefilim Maya** is an induced illusion."

The **Nefilim** have been around for a long time. After the Lumarian humans of the Atlantis period, was the **Nefilim's** time on planet **Earth**. They came from a **constellation called 'Draco'**. Their modus operandi is to kill a planet's etheric and spiritual being, cutting it off from the positive love energy of the universe and thriving off the remaining negative energy. The problem is that they have attacked the **heart chakra** of the physical universe, **Earth**. She is our true mother, the planet of love and humans are the children of love. Do you really think humans are solely capable of all the murder, taking, hating throughout this tangible history of the last few thousand years?

The **Nefilim** bred themselves into humans to look like us and thereby assured control over humans through the many generations of both species. The **Nefilim's great plan for us** is to wipe most of us out with **World War III**, and then the rest of us will be completely under the spell of aerial and satellite broadcast mind control wavelengths of 425 megahertz and microwaves measuring less than 1000 microwatts, which can make people hear voices and a more inhuman cruelty with nervous system damage. Overall, they plan to make us slaves, like they did to the Hebrews in Egypt, only now they have progressed us to the point where this illusion with its own explainable, manipulated and concreted history has given the **Nefilim** a collective and co-ordinated power over us. I'll say nothing for the **Nefilim's** designer history, but that history is written by the winners.

Of course, were supposed to be the step down transformers of the universe's energy, and should be working with the **elementals / devas, Mother Nature's emissaries** (the intelligent entities that inhabit everything, including rocks, rivers oceans, mountains, winds, trees, cars, a match stick, your cell phone - everything!!!) Their job is to do what Humans tell them to do. When we build a house it begins in the mind, and from this point until completion the **elemental** evolves with the house. It holds it together and can be happy or sad, depending on the people who live in it. Thinking kind and appreciative thoughts to your house, car, etc will make it so happy. We should be working and communicating with these beings of higher energy vibration so that we can heal Earth and all help her through the naturally rough transition as she nears her higher conscious awareness and the magnetic poles returning to zero degrees, let alone what our thoughts do to her, coupled with the fact that we don't work with the **devas** on mass and 'carry our own weight', as it were. Double that with what the **Nefilim** are doing to her soul by ripping into her surface and extracting all kinds of things that can provide for the basis of the world's economy and "reality" as we know it and weaken and imbalance her further. The universe will cut her off if she becomes too much of a burden to the system with its various forms and energy frequencies. Each planet is connected to other planets and suns by lines of energy, effectively connecting the entire physical universe together. We must work fast because

the **Nefilim** are very much in control of humans and this planet at the moment, and plan to kill her.

Many great souls have come to **Earth** through the ages, like Christ, who just wanted to give humans a positive thought pattern to carry the Earth through the past two thousand years. Unfortunately the **Nefilim** twisted and distorted the Bible into the "ethical and moral" foundation of Western society. It also served as a brilliant tool when all reference to re-incarnation was removed from the Bible in the 6th century AD. This gave birth to the concept that if you didn't behave and live like a quiet little slave you would go to Hell when you died, and Heaven if you just followed the instructions throughout your life. In reality, Hell can be likened to returning to Earth for another lesson because you didn't spiritually evolve enough in the last lifetime, and Heaven can be likened to moving on to the higher realms of the universe's great wisdom, only to return to assist humans in their development. By convincing the Christian based Western society that the battle of Armageddon has been won, and that they will all evaporate into thin air "when the rapture comes" is just another way to make humans give up and wait, neglecting our duty to **Mother Earth**. How we have been misled, and still are.

The entire universe is energy, **love energy** to be exact. This energy ranges in frequency / vibration through many dimensions and physical matter is just a very low vibration. It is all one energy, just different manifestations of it. Communication between the higher vibrations is easy, but the connection between the higher vibrations and the physical universe requires a catalyst to help bridge and blend the powerful energy with anything from planets, galaxies, seasons, animals, us.

The **devas** are the ones who spin up planets and suns, then less evolved **devas** do smaller jobs - triangles within triangles. On planet **Earth**, human beings were designed to use their minds and inherent system of chakras to bridge this gap, thus maintaining **Mother Earth**. We are the guardians of the animals, trees, oceans, rivers, lakes, etc. How can we allow the **Nefilim** use us against our nature? Eating meat, dairy and any animal by-products will give you negative energy and bad karma. Here are some famous quotes:

" MAHATMA GANDHI:

To my mind, the life of a lamb is no less precious than that of a human being. The greatness of a nation and its moral progress can be judged by the way its animals are treated.

" PROPHET MOHAMMED:

A good deed done to an animal is as meritorious as a good deed done to a human being, while an act of cruelty to an animal is as bad as an act of cruelty to a human being.

" ALBERT SCHWEITZER:

The thinking man must oppose all cruel customs no matter how deeply rooted in tradition and surrounded by a halo.
When we have a choice, we must avoid bringing torment and injury into the life of another, even the lowliest creature.

Totalitarian Dictatorship

In the words of **David Icke** (www.davidicke.com and <http://www.reptilianagenda.com/index.html>)

"There are two types of prisons or dictatorships. There is the overt variety, which are clear dictatorships (communism, fascism, etc) and then there are the most effective variety of all - the covert dictatorship, the one that masquerades as freedom."

The following is a series of quotations from a book called "Totalitarian Dictatorship and Autocracy" by **Carl J. Friedrich** and **Zbigniew K. Brzezinski** (who later became the Director of US National Security Agency - **NSA**). The book explores communism, fascism

and nazism and the mechanisms of a totalitarian dictatorship. It was first published in 1956. No ISBN number, although the 'Library of Congress' catalogue card number is 61-14198

"The autocratic regimes were not nearly as ghastly as the totalitarian dictatorships of our time."

"The truth of the matter seems to be that totalitarian dictatorship is a logical extension of certain traits of our modern industrial society (oftentimes called "**capitalism**")."

"Autocratic legalism, however, must not be confused with the totalitarian dictatorship of the notion of law in what is spoken of as the "laws of movement." These are presumably "laws of nature" or "laws of history" (but history understood as part of nature); they contain an existential, rather than normative, judgment."

"The totalitarian ideology tends to dissolve the normative in the existential realm, and consider all ordinary laws merely as expressions of the laws of the laws of nature and history."

There are six factors that are present in all totalitarian dictatorships. They are:

1. "An official ideology, consisting of an official body of doctrine covering all vital aspects of man's existence to which everyone living in that society is supposed to adhere, at least passively; this ideology is characteristically focused and projected toward a final state of mankind, that is to say, it contains a chiliastic claim, based upon the radical rejection of the existing society and conquest of the world for a new one."

[Note: **Nefilim** ideology is the New World Order through the guise of 'Justice']

2. "A single mass party led typically by one man, the "dictator", and consisting of a relatively small percentage of the population (up to 10 per cent) of men and women, a hard core of them passionately and unquestioningly dedicated to the ideology, and prepared to assist in every way in promoting its general acceptance, such a party being hierarchically, oligarchically organized, and typically either superior to, or completely intertwined with the bureaucratic government organization."

3. "A system of terroristic police control, supporting but also supervising the party for its leaders, and characteristically directed not only against demonstrable "enemies" of the regime, but against arbitrarily selected classes of the population; the terror of the secret police systematically exploiting modern science, and more specifically scientific psychology."

[Note: The **United Nations** 'Peacekeeping' Force]

4. "A technologically conditioned near-complete monopoly of control, in the hands of the party and its subservient cadres, of all means of effective mass communications, such as the press, radio, motion pictures."

5. "A similarly technologically conditioned near complete monopoly of control (in the same hands) of all means of effective armed combat."

6. "A central control and direction of the entire economy through the bureaucratic co-ordination of its corporate entities, typically involving most other associations and group activities."

"Propaganda as such is not a peculiarity of totalitarian dictatorship. It has become increasingly recognized as an integral part of all organizational activity in a highly literate society."

It goes on to describe how agitation type propaganda is designed to convince rather than to induce the masses.

"In totalitarian dictatorships, virtually all propaganda is directed ultimately to the maintenance in power of the party controlling it."

"The nearly complete control of all means of mass communication gives the totalitarian dictatorship the very great advantage of being able to shift its general point of view rather radically over short periods of time. This is especially helpful in the field of foreign affairs."

"An ideology thus defined is a reasonably coherent body of ideas concerning practical means of how to change and reform a society, based upon a more or less elaborate criticism of what is wrong with the existing, or antecedent, society. And a totalitarian ideology would then be one which is concerned with total destruction and reconstruction, involving typically an ideological acceptance of violence as the only practicable means for such total destruction."

- The **Nefilim** are few in number, but through strategic positions held in finance, industry, government, religions, etc they are using humans to kill **Earth**.

- With the exception of Eastern mysticism, which at least seeks to show the follower the path to enlightenment, all other religions, including **Christianity, Muslim, Judaism**, seek to instruct the follower to obey an autocratic deity, where failure to obey would mean banishment to the fearsome fire and brimstone of Hades. **These sound like Nefilim ideas** to me.

- With regards to the overt totalitarian dictatorships, resistance was collective and always based on the short term.

- In the case of the covert **Nefilim totalitarian dictatorship**, all the wars and regimes have been part of the big plan and resistance to a thirteen thousand year old plot would be futile.

So if this is the hopeless case then what do we do?

The ideal state of the human body is to be hollow like a flute so that the universe's energy can flow through us, effectively making music, love. The system of seven chakras and the 3 Nadis, columns of light can become blocked by negative energies, which are self-perpetuating and keep us feeling angry, depressed, lonely, etc. Through meditation it may ordinarily take a lifetime to achieve this state of spiritual awareness and self-realization and for this system to be cleared and centered.

As mentioned, over the ages many highly evolved souls have **returned to Earth** to assist in our development. The following is an extract from: <http://www.sahajayoga.org>

Reference to the writings from **Kak Nadi** written by **Kakayyar Bhujander** who was a great astrologer and seeker who lived nearly 2000 years ago:

"While **Jupiter** is in Pisces a great Yogi will incarnate on the Earth. By 1970 it will have become quite evident to many people that a new era will have started. **Kaliyuga** will end and **Kritayuga** will start. The axis of the **Earth** will depress and the **Earth's** orbit will come closer and closer to the **Sun**. Human life will undergo a complete revolution. A **great Yogi** will incarnate at this time. [...]

Until this time a yogi or devotee could achieve the bliss of **Moksha** and find the ultimate meaning of his life only by following the path of devotion, knowledge and Pantanjali Yoga. But he would have to go through severe penance in order to awaken the sleeping powers of various chakras of his body and finally enlighten the **Kundalini Power**.

By the new method of yoga devised by the **great Yogi**, human beings will be able to attain the joy of Moksha within one lifetime. It would no longer be necessary to sacrifice one's body or to die in order to achieve Moksha. The **Brahmananda** which so far only great

saints had been able to experience and then only by entering into the Samadhi state at the point of death, due to his new type of yoga could be achieved by ordinary human beings without entering Samadhi state while dying.

In the beginning it would be possible for one person in crores to attain this **Yoga** and **Moksha**. However, after some time the whole human race with the help of this Yoga will be able to defeat itself. People won't have to worry about food, shelter or clothing. While living ordinary lives people will achieve Yoga - Union with God. There will be no necessity for hospitals as there will be no diseases.

In the beginning the **great Yogi** will be able to heal diseases with a mere touch. Old age with its destruction of the body will not exist and people will possess heavenly bodies.

After Self Realization, our attention becomes for the first time connected to our Spirit and we gradually become aware of it. Our misidentifications with our ego or conditionings drop and we start becoming identified with our Spirit, which is our true nature.

This new level of consciousness can be achieved after **Self Realization**, through the regular practice of **Sahaja Yoga** meditation techniques that are taught, always free of charge, in over 75 countries around the world. Nefilim Propaganda

One of the methods of control borne out of a structured money-based, material world is the media, which is there to make sure we stay bombarded with frightening things on the news and in films to re-enforce the illusion. Anything but the truth, and if it is shown, it's made to look like fantasy so that we laugh at such stories whenever presented as a possible reality. Media is a medium for propaganda. Through television, radio, adverts that offer products that will make you a free and satisfied person, magazines, etc this illusion is maintained and patched up. Below are a few examples:

'**J.A.G**' is a **Nefilim propaganda** programme designed to convince, beyond a reasonable doubt, that the American Military is above board, honorable and accountable.

In one episode, while aboard an aircraft carrier, there was references made to one of the super soldiers created with mind control through hypnosis and trauma, and created by the **Nefilim's** right hand, the **CIA, NSA**, etc. His code name was "Rhino" and he would be dropped off onto aircraft carriers and then would jump out of an aeroplane, without parachute, landing on his legs, made to be as strong as 2 powerful springs through the power of hypnosis. Reaching terminal velocity, he would bounce once or twice, run like a cheetah and assassinate with single-shot precision. It didn't stop there and he wasn't the only "Project Superman" of **MK Delta (Mind Kontrol Delta** and the **Montauk Chair**). Only those who've studied these reports would know about "Rhino".

An approximate quotation from the dialogue included "Lt. Singer a security risk to convert operations aboard the vessel, a special type of aircraft called Rhino." Yeh, very special!

In another episode, the courtroom dialogue pertaining to a combat situation being related, included a **Nefilim** reference, quote "I'd believe him if he told me he was being shot at by green lizard men!"

This is scary, because it shows the blatant and perverse twist the **Nefilim** gives to reality by associating it with fantasy and thus re-enforcing the illusion of **Earthlings** being the dominant species of this planet. Just the thought of it is scary, man.

It would follow, then, that certain actors would be **Nefilim reptoid / humanoid creatures**, which would deliver the propaganda as skillfully and effectively as possible.

Another apparent quirk of some **Nefilim** actors, newsreaders, etc is a smile that begins off with the lips being pressed forward, and then spread out into the warmest smile conceivable. The **Nefilim** are very vain. Avoid their hypnotizing eyes.

Films like 'The Matrix' (which actually comes pretty close to the truth), 'Independence Day' (the "**Grey**" alien species' fantasy) and many others with the theme of aliens, programmes like 'The Outer Limits', 'Third Rock From The Sun' all associate aliens with fantasy.

An 'Eskom' advert on TV shows the 'inyago', thieves of the electrical cables as being people who turn into green scaled reptile humanoids complete with forked tongues! I mean, why use a green lizard of all things?

The fact that actors like **Ronald Regan** and others have gone into American politics is clear evidence that the **Nefilim** mislead and distract us with films. **Arnold Schwarznegger**, of Terminator and its sinister story line, has now decided to enter politics too, as Governor candidate for California! The **Nefilim** would only put one of their own in such a position. Despite allegations of admiring **Hitler**, he vehemently denies it and states that he's always hated the 3rd Reich. Did you know, **Hitler** was from the Rothschild bloodline, which is **Nefilim**? Only the **Nefilim** are capable of conceiving and orchestrating such cruelty.

Every time a movie has traumatic scenes in it, a broad spectrum of the target audience (humans) are forced to re-live any number of bad times in their past. From rape and murder to a dog that dies, someone watching will be weakened mentally, emotionally and spiritually. Just turn the 8 o'clock news on to feel despondent with our reality a la Nefilim and get your daily dose of fear. We're not supposed to be exposed to sick, negative images and concepts. We're supposed to be happy.

Sport, although promoting camaraderie and teamwork, is a huge distraction if nothing else.

Subliminal messages and **images** designed to turn us into slaves are constantly presented to us with or without our knowledge. Inaudible sound waves in spectrums beyond human hearing are beamed at us, even when there's a good song on the radio. Catchy chorus lines with detrimental statements are repeatedly sung in our minds and before we know it we've destroyed ourselves.

- **Hitler** used **fluorine poisoning** on concentration camp victims. Its effect on humans is to suppress responses in the occipital lobe, the part of the brain that makes us resist domination. They're piping it into your house right now through the taps, and it's in your toothpaste.

- The **pharmaceutical industry**, with its poisons, has repeatedly hidden life saving technologies and free energy. We get physically and mentally weak and mal-nourished from shelved and processed foods, and all the resultant expenses keep the masses poor in the **Nefilim** money system.

- What is to be said of religious leaders and 'evangelists'? The pillar figures of these institutions would no doubt be **Nefilim**.

I wouldn't be surprised if this story shook the fundamental roots, upon which most people have defined their existences. Most people will cling to their realities, and will delve deeper into religious texts and re-enforced concepts before they'll believe this story. Look for these things yourselves. It is not in human nature to destroy, but when we're convinced it is necessary, or it offers some gain to our to our holistic and personal 3 dimensional existence we seem to be more than willing to oblige the **Nefilim**'s wishes. Would not the

disbelief of this story be part of the fail-safe of the **Nefilim Maya?**
