My (our) unique perspective incorporates a broad range of data to form a clearer picture of the world wide (cosmic) system of which we are all a part. It pays to DYOR and come to your own truth!

One must be able to formulate a coherent cosmology and arraigned the pieces to form a true (clear) picture. It is up to all of us to take responsibility for ourselves and the world of which we are a part. We must literally graduate to another level and be willing to jump outside the box freeing ourselves from a limited perspective.

In computer software terms: It is time to upgrade our operating system to the next evolutionary level. If we choose to continue with the same way of processing our current reality then we are opting for a repeat of the cosmic/evolutionary cycle. On the other hand if we so choose: We may upgrade our current consciousness code and literally shift/leap into the next frequency. The human operating system utilizes frequency dynamics and can, through conscious intent, change the perception of the observer. May I suggest we choose the up-grade.

This may sound somewhat beyond the current understanding, but it is true..... DYOR!

p/s Listen to your intuition, trust your gut feeling, trust your hip shot, trust your integrity ... trust your heart.....don't listen to the controlled media...they don't want you to upgrade your consciousness.... And by all means take the time to do your own research; the information is available for those who are ready to shift.

Peace

RR
