This web site; www.robertreckmeyer.com is dedicated to finding Truth. It is through independent research that we have the ability to edify (ancient Roman verb to enlighten) ourselves and change the dynamic from a passive observer to an active participant. When we take responsibility and empower ourselves through knowledge and information then we change the nature of our personal and collective reality. Holding ourselves to a standard of truth and uncovering secrets puts the power back in the hands of the people and levels the playing field.

Hu-Man-ity, Earth is now experiencing the Shift of the Ages, spoken of throughout the ancient religious, esoteric and historical texts. Western scientific methods have confirmed we are experiencing unprecedented changes with planet earth and throughout our solar system.

The Science of Spirituality is the merging of western science with eastern spiritual understanding.

Humanity, Earth and our Cosmic place in the Galaxy has now entered a phased transition to another electro-magnetic frequency that will, when complete, totally remake our physical, spiritual and multidimensional reality. We are literally experiencing a phased transition and a metamorphosed transmutation of our human DNA genetic code.

The Ascension of our human potential has started and it is now incumbent on all of us to make the phased transition up the human evolutionary ladder through our focused intention. This opportunity is freely offered to humanity, as a free will offering, but must be an act of our free will, if we want to graduate to a new multidimensional reality. Humanity has reached the end of the current age and now it is either graduation time or time to fall back repeating the cycle, this is our personal and collective free will choice.

Western science has confirmed the frequency of the earth, better known as the heartbeat of the earth, (Schuman Frequency) has been increasing since the early 1980's. It is an established fact that the frequency of the earth, held constant, for as long as we have been keeping records, it was 7.8 hertz. Since the early 1980's it has been steadily increasing in frequency and now is measured at a little over 11 hertz. Based on current understanding we expect it to rise to 13 hertz somewhere in the 2012 time frame.

Planet Earth magnetics have been steadily falling for the last 2000 years and this decrease is increasing at an alarming rate. We now know that a pole shift is eminent and we can through western scientific methods calculate that we are in a phased transition that will reach a critical change point in the near future.

This change point, also known as a tipping point, may reorder our current molecular biology and our mother earth of which we are a part. The fact that our magnetics are falling and our frequency is increasing is an established fact and not in dispute by the western scientific community. Researchers are not as clear on what the ramifications will be and to what extent it will transform our world.

The ancient texts and the indigenous people of the world all speak to a fundamental shift and a transformation of our world including but not limited to our concept of time. The Mayan cosmology is quite clear that time as we know it and experience it will end on December 21st 2012. The world as we know it will end and humanity will transform into another evolutionary experience absent what the Mayans refer to as the 5th world.

As a self taught researcher and explorer I now find myself on the shore of a large ocean of possibilities. We have entered the twilight zone and it is literally the jumping off point to a new awareness and experience, the gift of life. It is my choice to help in the process of assisting mankind in the journey to another reality. I have chosen to act as a bridge or a navigator helping to guide others in the quest for our new world. This effort is being assisted by off world intelligences who are here, in force, offering their spiritual, metaphysical and multidimensional understanding. It is their heart felt intention to help in our transition from the old world to the new.

Many souls have incarnated and are here to help usher in a new civilization and a new understanding as we make the shift from our limited 3D perspective into 4th and 5th density reality. We were not only recruited for this mission but we also volunteered as a free will offering in the service to others. Now it is time to awaken from our slumber and get busy with the task(s) at hand. Our mission is clear: To be of service to others as we help navigate, guide, other pioneers, (explorers) acting as a bridge to the new paradigm.

The new paradigm is taking shape as we enter the final phase of our transmutation and our DNA upgrade. Many will fail to understand what is taking place and will falsely think this process is manufactured in a delusional mind; nothing could be further from the truth. The beauty of this age is the simple fact that we now have western scientific methods to confirm what is taking place.

Gregg Braden has offered a wonderful illustration as an analogy; we know that H₂O can express itself in three different ways, as a liquid, solid or gas, water, ice or steam. If we utilize a phase diagram and plug in the determinates of temperature and pressure we can show the phased transition from one state to another. The fact that H₂O can express its molecules in three different ways is understood and something we take for granted.

Now when we utilize the same method to analyze magnetics and frequency as determinates and their effect on our crystalline bodies including but not limited to our DNA genetic code it becomes quite clear that something fundamental is taking place outside our current level of understanding. We can search our ancient religious, esoteric and historical texts for knowledge speaking to this process. We can utilize our current scientific methods. We can use our logic and our intuition to help bridge the gap in our understanding. We can also tap into channeled material from Ra and the Law of One series, Edgar Cayce and others who are quite specific speaking to the Shift of the Ages.

Crop Circles are extremely helpful in our quest for knowledge and understanding and is a language unto its own. Sacred Geometry has within it the ability to speak to our soul and communicate a message that transcends this current paradigm. Our off world friends are offering their help as we transition from our solid state reality to a more fluid multidimensional perspective.

As we bridge this expanse we must be cognizant of our role and patient with our human family. It can be a difficult journey, for some, and it is important that we allow them to uncover their own latent abilities. All is good.....all is moving forward as it should.

May we meditate on the words of the Master;
Transfiguration of Jesus (Mark 9:1-8)

And he said unto them "Verily I say unto you, that there be some of them that stand here, which shall not taste of death, till they have seen the kingdom of God come with power."

And after six days Jesus taketh with him Peter, and James, and John, and leadeth them up into an high mountain apart by themselves: and he was transfigured before them.
